

Mohammed Vaseem H

Web Developer

[linkedin.com/in/mohammed-vaseem15905](https://www.linkedin.com/in/mohammed-vaseem15905) | +91 8608252352 | mohammedvaseem15905@gmail.com

Skills

- **Programming Languages** : HTML , CSS , JavaScript , Python , C , C++ , NoSQL.
 - **Framework/Libraries** : React.js , Vite.js , Tailwind CSS , Tkinter .
 - **Tools/Technologies** : Firebase , MongoDB , Git , GitHub
-

Experience

- **Secretary** - LiveWires Technical Club, SRMIST. - **July 2024 – Present.**
 - Oversee **30+** club operations and manage project development activities.
 - **React Developer** - LiveWires Technical Club, SRMIST. - **Jan 2024 – July 2024.**
 - Lead the web development team, including planning and coordinating tasks.
-

Education

- Bachelor of Computer Applications – SRM University, Kattankulathur (**2023 -2026**) **CGPA : 7.9**
-

Projects

- **SRM Curious Bees**: Developed a social media platform tailored for research scholars, akin to Twitter. The platform facilitates over 1,000 academic and research discussions, supporting 25,000 read transactions with multiple simultaneous connections.
 - **Data Analytics Dashboard** : Developed for the Agrisure Hackathon. Created a dynamic dashboard for visualizing analytics with real-time data integration from Firebase, including Firestore and authentication. Deployed using Cloudflare for enhanced performance and security.
 - **Payment App** : Built for the Fintech Hackathon. Implemented a user-friendly interface for processing payments, integrating secure payment gateways with Firebase authentication and Firestore database. Deployed using Cloudflare.
 - **Club Landing Page** : Created a landing page for the LiveWires Technical Club to enhance its online presence and engagement.
 - **Additional Projects** : Worked on **20+** various minor projects to enhance my skills in React.js and Tailwind CSS, including personal and collaborative efforts in web development. All projects were deployed using Cloudflare to leverage its benefits for deployment and management.
-

Achievements

- **Web Development Bootcamp** by LiveWires Technical Club, SRMIST (**3rd - 9th June, 2024**) : Delivered a keynote on web development and contributed to the development of a React.js project. Worked on integrating Firebase for authentication and real-time data handling.
- **Hackerrank** : Secured a **top 3** position among my department in the Hackerrank leaderboard by solving complex DSA problems.
- **Hackathons** : Actively participated in **10+** hackathons, focusing on building web applications and enhancing problem-solving skills.
